Alex,

Please find attached the revised section 24(c) memo.

I thought the purpose of this memo was to recommend we start disapproving pending/incoming section 24(c) requests so I added a "proposed next steps" section back in.

Let me know what you think.

Sarah

Sarah,

I have a much different idea about how to present this to the Administrator. I think you'll be able to understand my approach when you see all the edits and deletions I made. I ran out of time to continue working on the "implementation" section (the regs, what we would do, which states are up next, what is the timing?). Can you work on this on Thursday when I'm on travel and get it back to me so I can work more on it on Friday?

I really think we talk too much about dicamba here. While that may have led to increased 24(c)'s, the "misuse" as I call it has been going on for a long time and it is time for us to correct ourselves.

Give it a shot along my new structure and let's talk Friday.

Thanks.
